Speakers' Profile

Francesca Cerchia has over 25 years' experience in environmental markets with a focus on climate change mitigation and supporting mechanisms, carbon, energy, water and waste. With SGS she has first covered the role of Global Commercial Manager for the Climate Change Programme, moved into a Global Product Manager position for Carbon and Water Solutions and she currently holds the position of Global Head of Climate Change and Sustainability Solutions. In this role she is responsible for the global development of services related to decarbonization and climate change: GHG emissions verification for corporates (ISO 16064-1, ISO 14068, GHG Protocol), mandatory reporting (EU ETS, CORSIA, CBAM), product carbon footprints (ISO 14067), LCAs (Life Cycle Assessments), validation and verification of offset and removals projects. She also manages the suite of energy management solutions and certification of new fuels (Hydrogen).

Prior to joining SGS in 2011, she was Managing Director of Econergy International Corporation (A Suez International Group Company) in Brazil. There she developed, managed and delivered on turnkey renewable energy projects together with consulting services in the framework of the UNFCCC Clean Development Programme (CDM). Francesca holds an MBA from Thunderbird School of Global Management (USA), an MA in Politics and Economics from the College of Europe (Belgium), an MA in Political Science from "La Sapienza" Università degli Studi di Roma and she is fluent in English, Italian, Spanish, Portuguese and French.

Jerónimo Casas has 25 years' experience in environmental services with a focus on climate change and impact assessment for a wide range of industrial clients, from the automotive industry to cement, ceramics, steel, aviation and many more. With SGS he has first covered the role of Environmental Department Manager in Spain and currently holds the position of Global Product Manager for Climate Change and Sustainability Solutions. In this role, he is responsible for the global development of climate change services such as GHG emissions verification for corporates (ISO 16064-1, ISO 14068, GHG Protocol, ISO 14083), mandatory reporting (EU ETS, CORSIA, CBAM), product carbon footprints (ISO 14067) and LCAs (Life Cycle Assessments).

Prior to joining SGS in 2004, he worked as Environmental Technical Manager in Spain. There he managed and delivered on environmental assessment projects. Jerónimo holds a Degree in Chemistry, specialising in General Chemistry and Geochemistry from the University of Valladolid (Spain), a MBA from the Escuela Europea de Negocios (Spain), and Master Degree in Occupational Health and Safety. He is fluent in English and Spanish.
